Geneva Health Forum

Geneva, Switzerland

Programme Operations Support

Jan 2026 – Present

- Support coordination of high-level global health sessions; prepare documentation and capture policy insights for post-event reporting and stakeholder dissemination.
- Building working knowledge of the Geneva-based international organisation ecosystem, including policy dialogue mechanisms across UN agencies and intergovernmental bodies.

Ghana Health Service / Ministry of Health – Expanded Programme on Immunisation (EPI) National

Accra, Ghana

Immunisation Support Officer

Jan 2024 – Aug 2025

- Monitored immunisation programme performance data; collated and analysed Adverse Events Following Immunisation (AEFI) reports in collaboration with the Ghana Food and Drugs Authority to inform programmatic adjustments.
- Coordinated community mobilisation activities across regional and district levels, engaging government officials, community leaders, health workers, CSOs, and development partners.
- Drafted meeting minutes and programme reports for senior leadership; tracked action points to ensure timely implementation.
- Managed cold-chain inventories and vaccine storage monitoring, contributing operational evidence to national programme reviews.

Ghana Health Service / Ministry of Health – Disease Surveillance Department National

Accra, Ghana

Disease Control Officer

Nov 2022 – Sep 2023

- Conducted surveillance of Ghana's priority diseases and participated in outbreak investigation and response, including Lassa fever – applying national policy frameworks at the field level.
- Translated national surveillance protocols into district and regional operational guidance.

Tropical Health and Education Trust (Global Health Partnership)

Accra, Ghana

Administrative Assistant

Jan 2022 – Dec 2022

- Coordinated administrative and operational activities across international partnership programmes by maintaining strict data confidentiality and supported cross-organisational communication.

Global Health and Education Projects, Inc.

Riverdale, MD, USA

Public Health Analyst Intern

Sep 2022 – Feb 2023

- Collected, analysed, and synthesised public health and programmatic data to support programme quality assurance and evidence-based decision-making.
- Conducted comparative analyses of health system performance across multiple countries in Europe and Africa.

Ghana Health Service/Ministry of Health – National Immunisation Campaigns

Accra, Ghana

National Supervisor & Monitor

- Supervised field implementation for nOPV2 Campaigns (Rounds 1 & 2), Integrated Measles–Rubella & Vitamin A Supplementation Campaign, and COVID-19 National Vaccination Campaigns (10th & 11th Rounds), reaching populations at regional and district level.
- Led community engagement efforts to drive participation and coverage.
- Supervised and provided technical support to vaccination teams across regional and district levels.
- Maintained effective cold-chain management throughout campaigns to ensure vaccine potency.
- Ensured accurate documentation and real-time reporting of vaccine supply data, coverage figures, and operational challenges for national-level review.

Leadership & Activities

Ghana Public Health Association (GPHA)

Accra, Ghana

Deputy General Secretary

Jan 2021 – Dec 2023

- Drafted executive committee agendas and facilitated general assembly meetings, building experience in governance processes and institutional decision-making.
- Assisted in the coordination of antimicrobial resistance (AMR) project under the CwPAMS-2 programme by supporting project planning and multi-stakeholder engagement, including government, civil society, and Commonwealth partners.
